Access online button takes you to the first link on the list
Frustration: the results indicate that full text is available but when I click on the link I find that it’s not!
Why getting full text access can be frustrating

• The numbers are for us and against us
  Print: 1 210 titles
  Electronic: 139 000 titles (includes individually purchased journals, journals in packages, and Open Access journals)
  Platforms/vendors: 284 (includes e-books and e-journals)
• Most of our journals are in packages, which are usually the problem titles regarding coverage dates
• Please report coverage errors to me.
• But there is hope!
Frustration: why is the link not working?
Links not working:

• The complaints about links not working have dropped dramatically

• Setup:
  • Knowledge Base
  • Vendor
  • WMS
  • EZProxy

• Slow Internet speed
